Gophers Killed With Automobile Fumes.

Using automobiles as gopher killing machines is the novel service to which cars have been put by Oregon farmers who have set about to kill gophers, and other burrowing animals that damage their crops. A car, preferably one that is light, is driven into the field where the gophers live. The en-gine is allowed to continue running and one end of a hose is attached to the exhaust while the other end is ina short time the fumes penetrate the various passages and issue from other These are then plugged up; after this has been done the gases penetrate to the remotest chamber, and the inhabitants are suffocated.— From the August Popular Mechanics

Different.

Hostess (at party) — Does your mother allow you to have two pieces of pie when you are at home, Willie' Willie (who has asked for a second piece)—No, ma'am.
"Well, do you think that she'd like

you to have two pieces here?" "Oh," confidently, "she wouldn't care. This isn't her pie."—Philadel-phia Public Ledger.

High Cost of Life.

O. & C. GRANT LANDS To Cool a Burn and Take TO OPEN FOR FILINGS the Fire Out,

Entries to Be Allowed on Some 160-Acre Tracts This Fall.

IAND OFFICE ISSUES ORDER

All Lands Classified as Agricultura to Be Opened-Work of Cruising Will Begin at Once.

Portland-Just as fast as it can be classified, agricultural land in the Ore-gon & California land grant in this state is to be opened to entry by actual

This official information was brough from Washington Saturday by Louis L. Sharp, chief of the field division of the general land office, following his return to Portland from a three weeks conference in Washington with Com missioner Clay Tallman relative to de tails of the classification and opening

to entry.

By the latter end of next week Mr Sharp expects to be on his way with a crew of men, including expert timber

other counties.

The Oregon & California land grant in this state comprises a total of 2,-300,000 acres. Only those lands that are classified as agricultural will be pened to entry.

Just what proportion of the grant is classifiable as agricultural land nobody knows at this time. The best esti-mate can be no more than a guess. And it was as a guess only, though one based on all the information at hand that Mr. Sharp expressed the opinion that probably one-half the land will fall under the classification of agricul-

Deducting to begin with from the 2,300,000 acres of the grant some 300,-000 acres that are included in forest reserves, leaves approximately 2,000, 000 acres to be classified. If the estimated ratio of one-half is maintained, 1,000,000 acres of this 2,000,000 will eventually be classified as agricultural

and opened to entry.

Mr. Sharp said, however, that the public will not be kept waiting for the entire classification to be completed. Just as quickly as enough of the land can be classified to make it worth while, he explained, it will be thrown open to entry. This process will be continued until all the agricultural

land is opened to entry.
"I do not wish to be understood as making any definite promise," said Mr. Sharp, "but we hope to open the Mr. Sharp, "but we hope to open the first batch of land by early fall. This land will be in Southern Oregon, in either Jackson or Josephine counties, for we shall begin work there first."

United States to Ask British to Remove Blacklist Edict

Washington, D. C.—President Wilson and his cabinet determined Friday to insist that England remove American firms from her "blacklist." gine is allowed to continue running and one end of a hose is attached to the exhaust while the other end is inserted in a gopher hole and packed about with a cloth and a little dirt. In should be taken to terminate this should be taken to termi method of interference with American trade. In accordance with this decision Mr. Polk sent instructions to Ambassador Page in London directing him to make emphatic representations to the British foreign office, not only against the blacklisting of the firms whose names have been made public, but against the continuance of a tice described as in violation of inter-

national law. There is reason to believe that England expected some such action by the Washington government, The firms blacklisted were selected from a long list in the possession of the British au-thorities. Against those placed under the ban it is asserted the evidence is conclusive and when made public will convince the American government of the propriety of the measure adpoted.

Japan Gets Russian Line.

San Francisco-For \$7,000,000 Japan has acquired from Russia 75 miles of the main-line railroad through Southern Manchuria, according to reports received Monday by Japanese residents of this city. The residents of this city. The concession was paid for, the reports said, in was munitions, including aeroplane motors valued at \$1,000,000, manufactured in

Berkeley, Cal.
The firm of Mitsui & Co., was credited with having engineered the deal, knowledge of which was denied by the Japanese consulate here

London-British women gave an im pressive demonstration Sunday of their work in the war, thousands participating in a parade through the central districts of London. The parade was divided into numerous sections, with tableaux on lorries representing women in working costumes—showing how they have replaced men in various activities. There were women in overalls from munition factories, nurses, chauffeurs, streetcar conductors, railroad workers and agricultural laborers. In

Rotarians Pick Atlanta. ASQUITH ASKS COMMONS FOR NEW CREDIT OF TWO BILLIONS

London-Premier Asquith Monday asked the house of commons for a vote of credit of \$2,250,000,000 and the total since the beginning of the war to approximately \$14,160,000,000.

daily. All the expenditure from April 1 to last Saturday was \$2,795,000,000. Mr. Asquith said that the navy, army and munitions cost \$1,895,000,000; the loans to Great Britain's allies, \$785,000,000, and food, supplies, railways, etc., \$115,000,000. The average daily expenditure on the war, he said, was \$24,750,000. The July total continued the presence of the said of the sai

premature to survey a military situation and the prospects in the middle of the battle.

"The prospects are good," the war secretary said. "Our generals are more than satisfied with and proud of the valor of our men they are leading. Great as the British infantry was in Wellington's and Napoleon's day, they never have been greater than now.

Prudential Insurance Company Agents Called Out on Strike 24th per pound. Pork.—Fancy, 101@11c per pound.

New York — Agents and collectors employed by the Prudential Insurance company were called out on strike Monday by a union recently organized them and known as the International Insurance Agents' Protective association, with a membership of 6000. Although assertions of the company and the union were conflicting, it appeared Monday night that at least 500 men in the district have responded to the strike call thus far,

He Didn't Suffer From That.

A good story is being told concerning the head of Cox's, the famous army bankers and a young officer cilent.

The subaltern called one day and asked the cashier to let him have an overdraft of 50 pounds.

"I am very sorry, Lieutenant Blank," was the answer, "but your account is already overdrawn 100 pounds, and you, see, we have no security, except your life."

But Lieutenant Blank was not to be that continued more pay, recognition and "more reasonable" working hours. Telegrams from branches of the union in different states in the territory east of Chicago, leaders here declared, indicate that unless the demands of the men are met all the 6000 will follow the lead of those already out. About 13,000 agents and collectors are employed by the company.

Lack of sufficient collectors to see Spoksne Wesh. The men demanded more pay, recog-nition of the union and "more reason-

But Lieutenant Blank was not to be that premiums are turned in at the But Lieutenant Blank was not to be put off like this and demanded to see the head of the firm. To him he repeated his request. The banker was courteous, but firm.

"I am afraid, as the cashier says, we have no security for any further advance," he explained. "You might get killed, you see, and in that case we shall lose what we have already let you have."

The subaltern regarded the banker with a scornful stare.

The subaltern regarded the banker works tunnel under Lake Erie as a will be 100x100 feet, of reinforced.

A Famous Physician's

After a series of careful experiments and tests at the Invalids' Hotel and Surgicial Institute, Buffalo, N. Y., covering many years—Dr. Pierce, the medicat director of that hospital made announcement that he could prove that a medicine which he called "AN-URIC" was the best uric acid solvent now to be had. As a remedy for those easily recognized symptoms of inflammation—as scalding urine, backuche and frequent urination, as well as sediument in the urine, or if uric acid in the blood has caused rheumatism, lumber of the blood and finally reaches the kid. URIC" was the best uric acid solvent now to be had. As a remedy for those easily recognized symptoms of inflammation—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, imbago, sciatica, gout, it is simply wonderful how quickly "Anuric" acts; causing the pains and stiffness rapidly to disappear.

The very best possible way to take care of yourself is to take a glass of the water before meals and an "Anuric" tablet. In this way it is readily dissolved, with the food, picked up by the blood and finally reaches the kidneys, where it has a tonic effect in rebuilding those organs.

causing the pains and stiffness rapidly to disappear.

Swollen hands, ankles, feet, are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the sugar. A short trial will convince you.

Wonderful Discovery
